

## Where is your KPI data?

Partner with LPR Automation and unleash your plant's productivity.

- LPR Automation LLC is engaged in a wide range of control engineering and automation services primarily in the south-central Kentucky region.
- We work closely with our customers to understand their needs and provide embedded engineering assistance as well as implementing small to medium size automation projects. Our primary focus is delivering solutions based on the Rockwell Factory Talk platform. We also develop automation systems based on several other platforms including Siemens, Modicon, Omron, Wonderware, Ignition and Dream Reports. **(LPR has Rockwell certifications in FT Historian, Vantage Point, Metrics, Thin Manager and is a Stratus Certified Solution Architect)**
- Let us show you how our experienced staff can help with your company's automation & reporting system needs.
